## Symptoms

## Of Defective Vision

Many persons have the idea that defective vision manifests itself only in a failure or inability to see clearly, but itching, burning, smarting of the lids, dull pains in the eyes or head, even the back of the head, all come from irregularities in the optical construction of the eyes and may be entirely relieved by correctly fitted glasses.

DR. J. T. JOHNSON Guarantees to correct every case that he undertakes. If your eyes are giving annoyance consult him at once.

## AN ADDRESS

Issued to the Citizens of Greensboro  
By The Mayor.

To the Citizens of Greensboro:—I beg leave to say to the citizens of Greensboro through this channel that it is the opinion of an expert who has visited over one hundred cases of small pox during the last twelve months, that there is one case of small pox in the suburbs of the city on a back street. It is useless to try to hide a thing like this from the public, and it is equally as useless to allow the disease to spread and impede the business interests of the city by a small pox scare. It is agreed on all hands, by experts competent to judge, that the disease can be effectually stamped out by prompt and vigorous action, such as a strict quarantine of the house and patients infected, the detention for a period of fourteen days of all who have been subject to infection and a thorough vaccination of all the inhabitants of the city.

At a called meeting of the board of aldermen, held on the 12th day of March, 1899, steps were taken to employ all these means and crush out the disease in its very inception. The infected house has been quarantined and a guard placed over it both day and night, all persons who have been exposed to this case will be placed under quarantine for fourteen days and an ordinance has been passed requiring all persons residing in the city, either permanently or temporarily, to be vaccinated on or before Thursday, March 16th, 1899, and prescribing a penalty of \$20.00 for each day that any person shall refuse or neglect to be vaccinated after said date. One white physician will be found at the court house, up stairs, between the hours of 9 a. m. and 6 p. m., who will vaccinate all white persons applying there for the nominal fee of twenty-five cents. A colored physician will be found in the city hall over the market house, between the hours of 9 a. m. and 6 p. m. continuously, who will vaccinate all colored persons applying there for the same sum. Any person applying at either of these places who shall be unable, by reason of old age, sickness or inability to work, to pay the prescribed fee will be vaccinated free of any charge.

By strictly enforcing the provisions of the ordinance above referred to and carrying out the provisions of the quarantine, however it may be at other places, it will be impossible for Greensboro to be effected in any way by a small pox scourge. Our city will then be practically immune, and I hereby earnestly urge all our citizens to aid in every way in their power the authorities in the enforcement of this ordinance. I fully realize what a vast sum of money it would cost our business men of Greensboro should be visited by a small pox scourge, or even a scare to say nothing of the suffering entailed—and it is to prevent just such a thing that these steps have been taken, and the public fully enlightened. There can be no scare when it is known that there is but one case on a back street in the suburbs, that it has been quarantined, that all persons who have been exposed are being detained and that every inhabitant of this city has been vaccinated.

Z. V. Taylor, Mayor.

## Notice to Teachers and Pupils.

Prof. G. A. Grimley, Superintendent City Schools.  
Dear Sir:—Notice is hereby given that all teachers and pupils of both races in Greensboro must furnish certificates of vaccination on or before March 16th, '99. These certificates must be issued by some regular practicing physician of Greensboro and must state that the subject has either been successfully vaccinated within the last two (2) years or within so recent a period that the vaccination has not yet had time to develop.

Respectfully,  
A. E. Ledbetter,  
Co. Supt. of Health.

In compliance with the above notice, parents are requested to have their children vaccinated at once by their family physicians. Arrangements will be made by which reputable physicians will be present at the school buildings on Tuesday and Wednesday, to vaccinate all children whose parents so desire.

No children will be allowed to enter school Thursday morning or thereafter, without a physician's certificate of vaccination.

By order of the board of education.  
W. E. Stone, Pres.

## Attention.

The monthly meeting of the Fire Department will be held in the firemen's hall on Tuesday 14th inst at 7:45 p. m. Every member is urged to be present and committees will please have their reports ready.

By order of the chief.  
E. L. Clarke, Secretary.

## CITY OF PASIG CAPTURED

By General Wheaton's Men This Afternoon

## ENEMY MADE AN HOUR'S STAND

But at the End of That Time Were Forced to Retreat—The Killed, Wounded and Prisoners.

By Cable to THE TELEGRAM.  
Manila, Mar. 13.—General Wheaton attacked and captured the city of Pasig this afternoon. The enemy made a stand of an hour; but at the end of that time was forced to retreat. The Filipinos lost thirty killed and sixteen were taken prisoners. Six Americans were wounded. The rebels were caught in a trap. On one side of the river they were shelled by a gunboat and a flying column pursuing them on the other side. They were kept all the while in the open where the advancing column had easy range. In this way it was made imperative that the rebels retreat or be shot down.

The advance was sounded at 6:30 this morning, the cavalry leading in a smart trot across the open to the right. Eventually reaching a clump commanding the rear of Guadalupe the advance opened a heavy fire. The response was feeble and desultory, apparently from a handful of rebels in every covert. While the right column was swinging toward the town of Pasig, the left advanced pouring volleys into the bush. A small body of rebels made a determined stand at Guadalupe church but were unable to withstand the assault.

At 7:30 the gunboat started toward Pasig, first encountering the rebels in a jungle near Guadalupe. Steaming slowly she poured a terrific fire from her Gatling guns into the brush for an hour. Meanwhile Scott's battery ashore was shelling the trenches, driving the enemy out. The artillery then advanced to the ridge to move a few of the enemy's sharpshooters away from the trenches. By this time the enemy was in full retreat all along the line. The firing was discontinued temporarily in order to give the troops a rest before attacking Pasig.

## Whole Town On Fire.

By Wire to THE TELEGRAM.  
Wilmington, Del., March 13.—A request for fire engines was received early this morning from Salisbury, Md., saying the town was on fire. Two engines were sent immediately by a special train. A second dispatch asks for more help. Salisbury is a town of three thousand. Among the places burned is Jackson's lumber yard with millions of feet of lumber. Great apprehension is felt that the entire lower part of the town may burn.

## Tsung Li Yamen's Reply.

By Cable to THE TELEGRAM.  
Peking, March 13.—The Tsung Li Yamen's reply to the Italian minister's communication was sent the minister in a note yesterday requesting him to return China's original despatch regarding Italy's demands, but giving no indication of China's willingness to agree to the other points mentioned in Italy's ultimatum.

## Served a Good Purpose.

By Wire to THE TELEGRAM.  
Washington, March 13.—A report has been received at the state department today which says the marines doing guard duty at Peking, China, left that city today. The department is satisfied that they have served a good purpose and are no longer needed.

## Havana is Wild.

By Cable to THE TELEGRAM.  
Havana, March 13.—This city is wild with excitement today over the ousting of General Gomez by the assembly. The presence of the American troops alone prevents trouble among the Cubans. The friends of General Gomez continue to parade the streets.

## Work of the Hurricane.

By Cable to THE TELEGRAM.  
Brisbane, March 13.—The search steamer has returned from Cooktown and reports three schooners and eighty luggers lost. Four hundred colored persons and eleven whites were drowned in the recent hurricane which swept the northeast coast of Queensland.

## Both are Getting Well.

By Wire to THE TELEGRAM.  
New York, March 13.—Mr. Kipling is better this morning. It is stated that the danger of a relapse is past and that he will be able to leave his bed within a few days and take a short outing within two weeks. Elsie is pronounced convalescent.

## General Booth Sick.

By Cable to THE TELEGRAM.  
London, March 13.—A Melbourne dispatch says that General Booth is seriously ill there.

## MADAME ELRADO.

She Always Takes God Into Her Work.

Madame Lela Elrado, the palmist, who has already been in our city for more than a week, has been very successful since her stay here, in reading the lines of the hands of those who have consulted her and telling what the future will be. Many of her readings in scores of places that she has visited have come true. Not only has this been the case in other places, but in Durham as well. As an illustration of the truthfulness of her readings, we can cite the case of where a small robbery was committed in this city, that was correctly and truly told so that the culprit was known. She has been visited by numbers of the very best citizens of this and other cities, and has received much praise for the truthfulness and high character of her readings. Sometimes persons go to her and want to know when they will die. This is something that she or no one else can tell. That lies with God entirely. Madame Elrado always takes God into her work, and as the case with every one who takes God into their work cannot help making a success.

Madame Elrado will start for the north on Monday week, having been offered a splendid position in one of the most prominent summer resorts in one of the United States—Durham Sun.

Madame Lela Elrado is in the city and is stopping at the Planter's Hotel, where she will be only a few days.

## To Knights of Pythias.

The Telegram is asked to print the names of the following gentlemen and earnestly request them to be in their castle hall (Greensboro Lodge No. 30, K. of P.) on Monday night for the purpose of organizing a degree team. The presence of every member of the lodge is desired, of course, but the e have been suggested from which to organize a team. We hope they will all attend: J. J. Stone, F. N. Taylor, C. C. McLean, R. M. Phillips, A. H. Stack, C. G. Burton, E. W. Lyon, J. N. Longest, J. A. Murray, R. M. Albright, W. J. Blackburn, F. C. Bogles, R. B. Bell, G. A. Grimley, C. E. Holton, T. F. Mangum, J. S. Moore, J. J. Nelson, W. R. Pleasant, W. W. Rowe, E. V. Hobbs, J. H. Denny, J. W. Schofield.

## When.

When we learn to notice small things  
While waiting for the great,  
When we fail to undervalue—  
Forget to overvalue.

When we let our lips smile often—  
Our brows of frowns keep clear.  
And cease to cry for far off moons  
Loving the things quite near.

When we praise with tender, true words  
And stifle our complaints,  
We may not have reached God's heaven  
But at least are nearer saints.  
Windsor Castle.

## On To Manila?

Seventy six sailors in command of Lieut. John Hood and Lieutenant Commander R. A. Richmond came in on the Norfolk train Saturday night, traveling in two extra cars, and were transferred to the southbound vestibule. They were from the Boston and New York navy yards and were en route to San Francisco. Sailors from other places are being hurried to San Francisco from which place they will probably go to Manila to man the three Spanish ships captured by Dewey on the first of May.

## A Suggestion.

When the new depot of the Southern is open there will be much traffic about it. This will necessitate durable material for street building. We would suggest vitrified brick instead of macadam. It will be cheaper in the long run as the macadam will require constant attention. This brick pavement is in satisfactory use where heavy traffic is found. The railroad company and city can share the expense.

## Don't Miss It.

"The South as Seen in Red Rock" will be the subject of the literary program at the West Market street Epworth League tonight. All are cordially invited to be present and hear the discussion of Mr. Page's popular chronicle of the Reconstruction. 7:45 is the hour.

## \$50.00 Reward.

Fifty dollars reward is hereby offered to any person furnishing information leading to the conviction of the party, or parties, who broke out the window lights in the unoccupied dwelling house on Summit avenue on last Saturday night.

Z. V. Taylor, Mayor.

Charles Reuss and Bert Frey, imprisoned in a mine near Leadville, Col., are being fed by means of a rope passing efforts for their rescue.

## PRESIDENT'S SOUTHERN TRIP.

Party Leaves Washington at Six This Evening.

## ARMY COMMISSIONS IN DEMAND.

The President Does Not See One—Third of the Callers—Items Concerning People and Things.

Washington, Mar. 13.—President and Mrs. McKinley, as the guests of Senator Hanna, will leave for the south over the Atlantic Coast Line, Monday evening at six o'clock. Senator Hanna, who was at the white house Saturday said that he would keep the president with him at Asheville as long as possible; it is thought for about ten days. Whether the president will carry out his contemplated sea trip to Florida and Georgia waters will depend largely upon the future course of events. In addition to those who have already been mentioned who will accompany the party south is Assistant Secretary Corley. Private Secretary Porter will not go to Thomasville with the president, but in the absence of the Chief Executive will be in charge of state affairs at the white house.

Callers at the white house since the adjournment of congress have been very numerous, greater in number, in fact, than at any period since the days immediately following the president's inauguration. Most of the senators and representatives who call at the mansion do so for the purpose of presenting the claims of constituents who desire to receive commissions in the regular army under the re-organization act. During the past week the president has not been able to receive one-third of the number of visitors who crowd the ante-room of the white house, and has been obliged to confine himself to receiving only senators, representatives, and official callers. Mr. McKinley is anxious to get away from Washington, and Senator Hanna says he will doubtless find it a great relief to get away from the executive mansion for a week or so.

Senator Tillman, of South Carolina who, together with Representative Lattimer, was instrumental in getting up the congressional party now touring in the south will not go to Cuba with the other members. It is understood that he left the party at Charleston, and went at once to his home at Edgfield. During the recess of congress the senator will be a frequent visitor to the national capital, as there are always matters of importance here requiring the attention of the senator.

A prominent southerner in Washington is Col. Devereux Shields, of Natchez, Mississippi, who is stopping at the E. B. House. Col. Shields says that Governor McLaughlin, of Mississippi, has many friends, as well as enemies in the state, but thinks that he will prove to be a formidable candidate for the United States senatorship to succeed Senator Sullivan. Among other candidates according to Col. Shields will be Hon. John Allen, whom he says, will be strong in the legislature. General Catchings is also mentioned, but Col. Shields does not think he will cut much figure in the contest. Senator Sullivan may be a candidate both for the short and long terms, and many Mississippians coming to Washington expect him to succeed himself. The senator has made a good record at Washington which will doubtless help him at home.

Mr. and Mrs. James F. Oyster, of this city, who have been sojourning in Florida, Cuba, and Nassau for several weeks returned home Friday night. On their way north they stopped over for a few days at Asheville, N. C.

Postoffice sites have been changed in North Carolina as follows:  
Amelia, Alleghany county, one half mile northwest; Apple Grove, Ashe county, one mile north; Bamboo, Watauga county, one-half mile east; Bessie, Jackson county, one-half mile south; Goodwill, Forsyth county, three-quarters of a mile northwest.

Postmasters in North Carolina have been commissioned as follows: Jacob Blevins, Blevins, and Wm. T. Clark, Wolfville.

H. L. Stalen, wife and son, and H. W. Miller are at the Raleigh. The former resides at Tarboro and the latter at Raleigh, N. C.

## To Muster Out Volunteers.

By Wire to THE TELEGRAM.  
Washington, March 13.—Orders will probably be issued today to muster out nineteen or twenty regiments, mostly Lee's command, which comprise practically all the volunteer force remaining in the service.

## The President's Trip.

By Wire to THE TELEGRAM.  
Washington, March 13.—All arrangements have been completed for the president's trip to Thomasville. The special leaves at 6:40 today over the Atlantic Coast Line and Plant System.

## NOTES FROM HIGH POINT.

The Local News From Our Neighbor Briefly Told.

TELEGRAM BUREAU,  
HIGH POINT, N. C., Mar. 13.

Mrs. Mamie V. Bulla, of Thomasville, whose serious illness was mentioned in these columns a few days ago, died of consumption at 8 o'clock last night at her home. Mrs. Bulla is a niece of Mrs. Joe Hoffman, of this place, and has many friends here who regret to hear of her death.

W. R. Richardson, Aloe Wray and Merley English went up to Abbott's Creek this morning to survey a straight out to High Point to see what the cost would be to have waterworks here. They surveyed from Deep River last Friday. Mr. Richardson says the water will have to come from one of these sources, and he is trying to find out which is the best place to get it from.

There will be an Epworth League literary entertainment in the Methodist church next Thursday night, at 8 o'clock. The program will be a play suggested by King Arthur and the Round Table in Tennyson's Idylls of the King. Everybody cordially invited to attend.

Bruce Craven passed through Saturday night enroute to West Point, Miss., to visit relatives for about two weeks.

Miss Mamie Jordan spent yesterday in Greensboro.

J. W. Hancock, of Asheville, who has been in Hendersonville about six weeks, passed through this morning returning home.

Miss Mabel Wood, of Asheville, passed through this morning returning home from Greensboro.

J. C. Callum, of Greensboro, one time a resident of High Point, was in town this morning shaking hands with friends.

Mr. and Mrs. W. T. Kirkman left today for New York whither Mr. Kirkman goes to buy his spring and summer stock of dry goods.

### PREMIUM ON INTELLIGENCE.

Mr. Charles P. Sapp, formerly editor of this paper, now of the News and Observer staff, than whom there is no brighter or more pungent newspaper writer in the state, has a timely article in Sunday's News and Observer on "The Significance of the \$100,000 Appropriation for Public Schools." We make the following extracts from Mr. Sapp's letter:

The last legislature put a premium on intelligence. The premium was not so high as folks who know little or nothing of conditions in the state would have liked that it should be; it was higher than was desired by the state who would have conditions remain always the same, at whatever cost.

It is the first time in the history of the state that any attempt has been made to give formal recognition to trained intelligence through legislative enactment, to distinguish between the intelligent man and the ignorant in making up the state's roster of citizens. Other states, some of them, did this long since; North Carolina has, as usual, been a somewhat tardy follower.

But there has not only been a legislative recognition of the fact that men may be of such different degrees of intelligence as to make some fit and some unfit to exercise the right of suffrage, but it may be said that the general assembly of 1899 inaugurated what is to be a new educational policy. It fixed a standard of citizenship and set about helping the citizens of tomorrow.

Here is the standard: "Every person presenting himself for registration shall be able to read and write any section of the constitution in the English language."

It is true that the succeeding section of the constitutional amendment modifies this declaration but it is an important departure none the less.

And this is how the state is to help the citizens of tomorrow meet the requirements of the new citizenship: "The general assembly of North Carolina do enact:

Section 1. That the sum of one hundred thousand dollars be, and the same is hereby appropriated annually, from the state treasury, for the benefit of the public schools.

Sec. 2. That this money shall be distributed to the respective counties of the state per capita as to school population on the first Monday in January of each year, using the school census of the previous scholastic year as a basis of apportionment.

Sec. 3. That the superintendent of public instruction shall issue warrants upon the auditor for the amount due each county under section two of this act; said warrants to be drawn in favor of the county treasurer of each county, to be credited to the general public school fund of the county."

It is true that \$100,000 is not a great deal for the state of North Carolina—only a trifle over \$1,000 for each county—but its significance is not to be measured by the amount. That it was not doubted was only because the state did not have \$200,000 to spare at this time. As the state grows wealthier, as intelligence, fruitfulness the state's waste places, the new policy of progress will find larger means provided to give it wider beneficence.

Those who have tried to spur the languid interest of our people into a movement potent for better schools will best weigh this additional \$100,000. Such will see in it not mere 16 2/3 cents additional school money for each of the 600,000 school children of the state but the awakening of a people that consciously shirks no duty, to a duty too long deferred. Mahomet has waited long for the mountain to come to him; at last he has started a little way toward the mountain.

Most people are surprised that there is a single opponent to Alfred M. Waddell for mayor of Wilmington. To a man at this distance it would appear that every white man, woman and child in that city should whoop it up for Waddell. He should be nominated by acclamation. In the matter, last November, of turning the city over to the white people, Waddell led with a careful and a steady hand. As a writer in the Wilmington Messenger says, somebody else might have led but nobody else did. To fail to give Waddell the endorsement of a nomination would be to repudiate the work of last November 9th and 10th. Even should the nomination go to him by unanimous acclaim the city will have

the advantage in honors. Waddell is a man fit to be governor, United States senator—anything in the gift of the people.

We had laid the flattering unction to our souls that North Carolina was not the lowest in the educational scale, only next, and now the Charlotte Observer breaks up that fond delusion and says we air the lowest. If it is true, tis pity and tis true. If every paper in North Carolina will publish an article, either by editorial or communication, on the subject of education regularly and unceasingly, we believe that a sentiment can be moulded that will bring forth good fruit at the next legislature. This is common ground on which the press of the state can write regardless of political affiliations.

"Charlotte and Greensboro are two of the liveliest, most pushing, energetic cities in North Carolina." Thus spoke Rev. Dr. A. B. Simpson, of New York, to a representative of the Charlotte Observer. Dr. Simpson is president of the Christian and Missionary Alliance and one of the pastors of the Gospel Tabernacle in New York city. That he is an intelligent, observing man we are prepared to believe, as witness his opinion of Charlotte and Greensboro.

As will be seen from a letter published elsewhere, General Fitz Lee, the gallant Virginian who was so idolized during the trying moments following the blowing up of the Maine in Havana harbor, has withdrawn from the Virginia senatorial race. It is well, for him, as his financial views are not in keeping with the southern democracy at present.

### Mend Your Bird's Legs.

Young chickens and other birds frequently break the bones of their legs, and if properly attended to these fractures can be easily cured with very little trouble. As soon as the injury is noticed the fracture must be carefully cleaned and washed with warm water and then wrapped with a bit of antiseptic cotton. Splints are then prepared for the fractured limb, preferably of split elder wood, the pith of which is taken out. These splints are fastened to the cotton with a drop of glue, and held tightly in place by being wound with linen thread. The bandage and dressing are left undisturbed for from three to four weeks, then the leg is soaked in tepid water until the bandage comes off easily. The fracture will have completely healed in that time.

Canaries and other pet birds can be similarly treated in case of a fracture of a leg, only the elder splints are substituted by pieces of cardboard and the bandage is left but two weeks on the little winged patients.

### Kaffir Swimming Feats.

The Kaffirs are great swimmers. They can do things in the water which other folk would look upon with astonishment. For example, a Kaffir boy can ford a stream shoulder high, running as swiftly as if shot from a torrent. The way they accomplish the feat is thus: Just before entering the water they get a huge stone, sometimes as heavy as themselves, and with the help of a companion place it upon the head. A weight like this gives the boy balance, and he can keep his footing against the heaviest stream. If he were to drop the stone, he would be so light that the water would sweep him off his feet. And this is just one of the Kaffir tricks to accomplish things against tide and flood.

Quantity Expressed. Lady Dufferin, in her reminiscences, gives some instances of the variations of the English language as she is spoken by the learned baboo, whose European education has given him a little knowledge which is dangerous. The gratification expressed in the following sentence has something pathetic in it: "You have been very good to us and may Almighty God give you tit for tat."

A small piece of paraffin wax, which melts and spreads in an airtight layer over the surface of the liquid, is found by a German chemist to prevent change in the taste of milk on boiling.

A Swiss law compels every newly married couple to plant trees shortly after the ceremony of marriage. The pine and weeping willow alone are proscribed.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh Edgar, Germantown, Cal. For sale by C. E. Holton.

Dora Heckert, daughter of the proprietor of the Perkins house, Fultonville, N. Y., shot and killed herself.

### No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chili Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter nauseating tonics. Price, 50c.

### HE IS NO CANDIDATE.

Gen. Lee Withdraws From The Senatorial Race.

Richmond, Va., Mar. 11.—The following letter from General Fitzhugh Lee agent the question of his candidacy for the United States senate, was given out for publication today:

"Headquarters Seventh Army Corps, 'Camp Columbia, Near Havana, Cuba, February 22, 1899.

"Col. B. O. James, Attorney at Law, 'Richmond, Va.

"My Dear Colonel: 'I have received both your letters. My duties as commander of a large body of troops have occupied so much of my time that I have not been able to give to the subject you mention the careful consideration it deserves. Many letters have been constantly received by me in which they urge my prompt return to the state in order to arrange to make a canvass of the whole state, so that the people may be informed, so far as I can enlighten them on the political issues inolved in the selection of the next senator to represent the state in the United States senate.

"These letters have placed me under some embarrassment, because I have not been able to say when I can leave the present important work I am engaged in, and, because, too, I cannot say how long my stay will be prolonged on this island.

"In view of these uncertain conditions I think it best to relieve my friends and the senatorial situation by authorizing you to say that it is my desire that my name shall not be considered in connection with the United States senatorship.

"I am quite sure my friends generally will support for the seat now occupied by Mr. Martin any candidate who can secure the greatest support from the people or their representatives. In conclusion, I express the hope that the people of Virginia will be given in the near future the opportunity for the selection of a senator to represent their interests in the senate of the United States and that no man shall occupy that high position unless he can read his title clear.

"Yours very truly, (Signed) Fitzhugh Lee."

### Notice of Election.

Notice is hereby given that at a meeting of the board of aldermen held on Monday, the 6th day of March, 1899, M. C. Workman was appointed registrar, and A. M. McDoo of the first ward, J. T. Abbott of the second ward, B. E. Sergeant of the third ward, John H. Rankin of the fourth ward, and G. W. Glascock of the sixth ward, were appointed inspectors of election to be held on the first Monday in May, 1899, for the election of mayor and a board of aldermen.

This is to give notice that M. C. Workman, registrar, will attend from 7 a. m. till sunset at the M. P. Publishing House building on South Elm street, beginning on the 27th day of March and continuing to within ten days of said election, for the purpose of registering those who are entitled to register in the said city election. By order of the board, March 7, '99. John S. Michaux, City Clerk.

**Florida and the South.**  
Opening of the Social Season and In-  
auguration of the Magnificent

**New York & Florida Limited Service**  
JANUARY 16, 1899.

The opening of the Florida season  
will be signalized this year as usual  
by the placing in service of the "New  
York and Florida Limited" between  
New York and St. Augustine, Fla.  
This is acknowledged to be the finest  
train in the world, in its appoint-  
ments, luxury and detail of finish,  
and the first of these trains was con-  
structed by the Pullman company for  
the use of the President of the United  
States on official tours.

"The New York and Florida Lim-  
ited" leaves New York daily except  
Sunday at 11:50 a. m., via the pen-  
sylvania Railroad, the Southern  
Railway, Florida Central & Penin-  
sular R. R. and the Florida East  
Coast Railway, and reaches St. Au-  
gustine at 2:20 p. m. the following  
day, making the run, which exceeds  
1,000 miles, in little more than twenty-  
four hours. No train has attracted  
so much attention, and its fame has  
been heralded wherever it is known.

It is composed of Pullman  
compartment cars, each room being  
finished in different woods and sup-  
plied with private lavatory and toilet;  
Pullman drawing-room sleeping cars  
of the latest pattern and finish; a royal  
club car for the gentlemen; an obser-  
vation car with a handsome drawing  
room at its rear opening on to a wide  
platform; a library car, and dining  
car, in which the service and the cul-  
sine rank with the finest New York  
hotels. This "New York and Florida  
Limited" runs through solid to St.  
Augustine with the exception of one  
car which is detached at Columbia,  
S. C., and goes through to Aiken,  
which it reaches at 9:35 the next morning  
after leaving New York, and Au-  
gusta at 9:50. Brunswick and Jacksonville  
are conveniently reached by  
this train at 12 o'clock noon through  
the perfect connections afforded at  
Everett, Ga.

There are two other fine trains be-  
tween New York and Florida via  
"The Florida Short Line," one the  
"Washington and Southwestern Vest-  
ibule Limited," leaving New York at  
4:20 p. m. daily, and the "United  
States Fast Mail," leaving New York  
at 12:05 midnight. The former train  
carries through Pullman drawing  
room sleeping cars between New York,  
Jacksonville and Tampa, and also  
offers Pullman sleeping car service  
between New York and Augusta, Ga.,  
with connections for Aiken, Brun-  
swick and Jacksonville. The latter  
carries through drawing room sleep-  
ing cars between New York and Jack-  
sonville, connecting with parlor car  
service to points on F. C. & P. R. R.  
and F. E. C. Ry. Dining cars are  
operated on all trains of the Southern  
Ry. "The Florida Short Line" in  
connection with the Florida East  
Coast Railway to Miami offers the  
most direct, quickest and delightful  
service to Nassau, Havana and Key  
West. For full information, reserva-

**FORESTS OF STONE.**  
They Exist in Various Parts of the  
World.  
Old forests are apt to get into the  
most impossible places and to turn into  
the most preposterous shapes. All our  
coalfields are ancient forests far under-  
ground, then crushed and cooked into a  
hard mineral substance. The fore-  
ests of plants which once grew as  
mighty trees, for outside of fairyland  
who would ever imagine a majestic  
woodland of club moss and reeds and  
the little sand weed called the horsetail!

In Greenland, right under the ice-  
fields, a buried forest has been found in  
which the plants were all palms and  
tropical creepers, proving that once the  
arctic regions were as hot as the Indies.  
In the Wash, between the counties  
of Lincoln and Norfolk, there is an old  
forest under the sea, with stumps of  
fallen oaks and elms still visible in  
places when the tide is low. This was  
all dry land in the days of the ancient  
Britons.

Ont in the desert of Arizona there is  
a dead forest on the surface of burning  
rock and drifting sand, where no plant  
save the cactus can now find any wa-  
ter. When the place was first discover-  
ed, a negro cook thought it would be an  
excellent place for camping, so he took  
an ax and delivered a mighty blow upon  
the fallen trunk of a big red pine.  
His ax was ruined, the haft smashed  
and his fingers so badly hurt that he  
sat down and howled, for that tree  
was changed to massive rock, which  
looked as fresh as though felled but  
yesterday. The whole prostrate forest  
of big timber had been changed into  
valuable and beautiful onyx, jasper  
and agate.—Chicago Tribune.

**THE TRUE MANIA.**  
Interesting Facts About a Lichen of  
the Saharan Desert.

According to M. Chastrey, the true  
mania of the Scripture is the thallo-  
phyte, known to botanists as *Canthar-  
esculenta* and *Lichen esculentus*.  
The nomads of the Sahara and south  
Algeria call it *Ouseh-el-Ard*. It is also  
found in Persia, Arabia and Mesopo-  
tania. It is grayish, about the size of  
a small pea, and farinaceous inside.  
Some say the spores are brought by  
wind and develop with dew. Others  
think it leaves a germ or seed behind it  
when it perishes. It should be collected  
in the morning of its appearance, be-  
cause it dries in the sun and is lost in  
the sand. It can be preserved in a closed  
vessel. The lichen does not cling to any  
foreign body, but lies on the sand in a  
layer sometimes nearly an inch thick  
and can be collected easily. It is rather  
sweet in taste.

The Arabs, whose lives it often saves,  
boil it in water, and thus get a gelati-  
nous paste, which they serve in various  
ways. To preserve the manna they dry  
it in the shade or they wrap the paste  
in skins. Analysis shows that the lichen  
contains 16 parts of water, 14 of nitro-  
genous matter, 20 of carbonaceous  
matter, 5 of mineral matter, 35 of sugared  
and amylaceous matter and 4 of  
fat. The Arabs of Chaambra and the  
Algerian nomads never fail to gather it  
after dew and rain as a welcome ad-  
dition to their diet and a gentle laxa-  
tive.—San Francisco Chronicle.

**Eczema!**  
**The Only Cure.**

Eczema is more than a skin disease,  
and no skin remedies can cure it. The  
doctors are unable to cure it, and  
their mineral mixtures are damaging to  
the most powerful constitution. The  
whole trouble is in the blood, and  
Swift's Specific is the only remedy  
which can reach such deep-seated blood  
diseases.

Eczema broke out on my daughter, and con-  
tinued to spread until  
her head was entirely  
covered. She was treated  
by several good doctors,  
but grew worse, and the  
dreadful disease spread  
to her face. She was  
taken to two celebrated  
health springs, but re-  
ceived no benefit. Many  
valuable medicines were  
tried, but without suc-  
cess. I then decided to try  
S. S. S. and by the time  
the first bottle was finish-  
ed, her head was com-  
pletely and left her skin  
perfectly smooth. She  
is now sixteen years old  
and has not a sign of the  
disease has ever returned.

**S. S. S. For Blood**  
is the only cure and will reach the most  
obscure cases. It is far ahead of all  
similar remedies, because it cures cases  
which are beyond their reach. S. S. S. is  
purely vegetable, and is the only blood  
remedy guaranteed to contain no po-  
tash, mercury or other mineral.

**HIS FIRST THIMBLE.**  
Inventor John Lofting Made a For-  
tune From It 200 Years Ago.  
"There is a rich family named Loft-  
ing in England," said a dealer in fancy  
articles, "the fortune of whose house  
was founded by so apparently insignif-  
cant a little thing as the thimble."  
The first thimbles seen in England  
were made in London less than 300  
years ago by a metal worker named  
John Lofting.

"The usefulness of the article recom-  
mended it at once to all who used the  
needle, and Lofting acquired a large  
fortune and great fame in the manu-  
facture of the new accessory to the needle-  
worker's art."  
The implement was then called the  
thumb bell and was worn on the thumb.  
The clumsy mode of utilizing it was  
soon changed, but when and why the  
name thimble was given the article  
do not appear.

"Lofting's thimbles, and, in fact, all  
thimbles, were made of either iron or  
brass, and specimens of them extant,  
many of which are preserved as heir-  
looms, are crude and clumsy looking  
things compared with the commonest  
thimbles of today, although their cost  
was many times as much."  
"Today gold, silver, iron, ivory,  
steel, sometimes glass and even pearl  
and celluloid are utilized in making  
thimbles. Since art needlework became  
fashionable thimbles of elaborate work-  
manship and great value, to accompany  
the rich and costly implements and ma-  
terials wealthy needleworkers affect,  
have found a large sale."  
"Solid gold thimbles, carved and fre-  
quently set with diamonds, have been  
found none too good for some people.  
Thimbles made to order, with the mono-  
gram or initials of the person for whom  
they are intended set in precious stones,  
are not by any means unknown."—  
Philadelphia Press.

**HE ATE THE SOAP.**  
Garland Would Have Swallowed It If

The late Augustus H. Garland, who  
was attorney general under President  
Cleveland, was very fond of practical  
jokes and during his term of service in  
the senate frequently turned the laugh  
on his colleagues. Senators Voorhees  
and Vest, with whom he was very  
friendly, finally determined to turn the  
tables. Mr. Garland had a habit, like  
Voorhees, of munching candy, and Vest  
and Voorhees made it up between them  
to take advantage of his fondness for  
sweets to play their trick. They had  
some tempting looking chocolate can-  
dies prepared, with the interior filled  
with brown soap. These they took to  
the senate chamber and Voorhees placed  
them on his desk. The lid being off  
when Mr. Garland sauntered down the  
aisle he noticed them at once.

"What have you there, Dan?" he in-  
quired.  
Voorhees looked up carelessly from  
his writing and responded "Caramels.  
Help yourself."

Garland needed no second invitation  
and picking up two or three, placed  
them in his mouth. Steadily he chewed  
away, his face betraying no sign of the  
conflict within him. This alarmed  
Voorhees, who went to Vest's desk and  
said:  
"He's eating them, Vest! What shall  
we do to kill him with?"  
Senator Vest replied that it could do  
no more than make him sick. Garland  
swallowed the stuff, although he was  
foaming at the mouth from the soap-  
suds. He related the incident afterward  
with great gusto and said he would  
have swallowed it if it had killed him.

**Strengthening Weak Eyes.**  
What is said to be an excellent lotion  
for strengthening weak eyes is as fol-  
lows: Four teaspoonfuls of boracic pow-  
der and a pint of boiling water. Put  
the powder in a jug and pour the water  
over it. Stir until quite dissolved, then  
put the solution into a bottle and keep  
well corked until required. When re-  
quired, add a little boiling water to an  
eggcupful, with or without the addi-  
tion of two teaspoonfuls of laurel or  
elder flower water, and bathe the eyes  
frequently with this, using a soft rag  
or fine sponge for the purpose.—New  
York Tribune.

**Insect Notes.**  
The slow flapping of a butterfly's  
wing produces no sound. When the  
movements are rapid, a noise is pro-  
duced which is due to the vibration of  
the wings. Thus the house fly, which  
produces the sound of F, vibrates its  
wings 21,120 times a minute or 885  
times a second, and the bee, which  
makes a sound of A, as many as 36,400  
times or 440 times a second. A tired  
bee hums in E, and therefore, accord-  
ing to theory, vibrates its wings only  
830 times a second.

**The Whale Cure For Rheumatism.**  
It is said that in Australia there is a  
hotel where rheumatic patients congre-  
gate. Whenever a whale has been taken  
the patients are rowed over to the works  
in which the animal is cut up, the  
whalers dig a narrow grave in the body,  
and in this the patient lies for two  
hours, as in a Turkish bath, the decom-  
posing blubber of the whale closing  
round his body and acting as a huge  
poultice. This is known as the whale  
cure for rheumatism.

lose his estimable family.

**Notice.**  
The first edition of "The Empire of  
the South" having been exhausted, a  
second edition will be ready for distri-  
bution by or about March 10, 1899.  
It is a handsome volume of about  
200 pages descriptive of the South and  
its vast resources, beautifully illustrat-  
ed, and regarded by critics as the most  
complete production of its kind that  
has ever been published.  
Persons wishing to secure this work  
will please enclose to the undersigned  
25 cents per copy, which amount  
approximates the cost of delivery.  
Remittances may be made in stamps  
or otherwise.

subject to W. A. Turk, General Assen-  
senger Agent, Southern Ry., Wash-  
ington, D. C.

**Chamberlain's Cough Remedy**  
This remedy is intended especially  
for coughs, colds, croup, whooping  
cough and influenza. It has become  
famous for its cures of these diseases,  
over a large part of the civilized  
world. The most flattering testimo-  
nials have been received, giving ac-  
counts of its good works; of the aggra-  
vating and persistent coughs it has  
cured; of severe colds that have yielded  
promptly to its soothing effects, and  
of the dangerous attacks of croup it  
has cured, oft saving the life of the  
child. The extensive use of it for  
whooping cough has shown that it  
cures that disease of all dangerous  
consequences. Sold by C. E. Holton.

The New York Post-Graduate hos-  
pital will establish a new training  
school for nurses, to cost \$100,000,  
which has been given by Harris C.  
Fahnestock.

Rev. E. Edwards, pastor of the En-  
glish Baptist Church at Minersville,  
Pa., when suffering with rheumatism,  
was advised to try Chamberlain's  
Pain Balm. He says: "A few applica-  
tions of this liniment proved of great  
service to me. It subdued the inflam-  
mation and relieved the pain. Should  
any sufferer profit by giving Pain  
Balm a trial it will please me." For  
sale by C. E. Holton.

boys, quarreled at Petersburg, Ind.,  
and Lipp fatally gashed the throat of  
Patterson.

**How to Look Good.**  
Good looks are really more than  
skin deep, depending entirely on a  
healthy condition of the vital organs.  
If the liver is inactive you have a  
bilious look; if your stomach is dis-  
ordered you have a dyspeptic look;  
if your kidneys are affected you have  
a pinched look. Secure good health  
and you will surely have good looks.  
"Electric Bitters" is a good alterative  
and tonic. Acts directly on the stom-  
ach, liver and kidneys, purifies the  
blood, cures pimples, blotches and  
boils, and gives a good complexion.  
Every bottle guaranteed. Sold at C.  
E. Holton's drug store. 50 cents per  
bottle.

## DR. J. N. WILLIAMS DEAD.

Passed Away at 7 O'clock This Morning—The Funeral.  
 Dr. J. N. Williams died at 7 o'clock at his home on East Market street, after an illness of about eight weeks. He was 57 years of age and had been a resident of Greensboro for about fifteen years, during which time he was a successful practicing physician. Dr. Williams was a man of noble character and sterling qualities and was admired by all who knew him. He leaves a wife and one son, John H. Williams, to mourn his loss. The Telegram extends sympathy to the bereaved.  
 The funeral will be preached at 10 o'clock tomorrow at West Market street church, of which the deceased was a faithful member. The remains will be interred in Greene Hill cemetery.

 MRS. HOUSEKEEPER:  
 Please permit us to ask you a very pointed question: Have you a Universal Food Chopper? By this we do not mean a meat grinder, but a Chopper, which takes the place of chopping bowl and beater.  
 It chops meat, of course, but it does more. You can chop ham, cocoanut, or bread instead of grating it. You can—but we can't tell it all here. Our booklet gives full information free. You will have use for it every day in the year. It is very simple and very cheap. Please call and let us show it to you. Yours truly,
